PATENT PENDING

YOUR FIRST LINE OF
DEFENSE AGAINST
WILDFIRES AND HOME FIRES

HOME FIRE FIGHTER UNIT

SAVE YOURSELF.
SAVE YOUR FAMILY.
SAVE YOUR HOME.

WHY POOL WATER?

Most residential pools hold from 14,000 to 100,000 gallons.

A typical fire truck carries only 500 to 750 gallons.

With a Home Fire Fighter Unit, you're sitting on an untapped advantage—your own backyard water reserve.

With Home Fire Fighter, you turn backyard water into life-saving defense.

A GAME-CHANGER IN FIRE DEFENSE

Save critical time when every second counts

Help firefighters protect your neighborhood

Keep small fires from becoming disasters

Use your own water—no rationing, no delay

Doesn't rely on municipal infrastructure
